

# Cancer

Wipe out cancer's chances  
with risk assessment and management.

Kansas City Cancer Center's G.R.E.A.T. Program—*Genetic Risk Evaluation And Testing*—was created to proactively identify and measure a patient's cancer risk factors. Because once we understand the risk, we can do something about it. For more information, go to [KCCancerCenter.com](http://KCCancerCenter.com) and click on the *GREAT* tab, or call 913-577-5875.
